## Program

### TIME

The present, though everything suggests a resistance to change.

### PLACE

The interior of an old-fashioned priest's house in a small American city.

### SYNOPSIS

The story of the play revolves around Jenny, a naive, unspoiled, intelligent young girl whose love for Michael Saunders is complicated by the well-intentioned but mis-directed meddling pastor of St. Matthew's. The warmth and sincerity of the story coupled with the naturalness and subtlety of the humor elevates the play to the level of fine comedy and superb entertainment.
